Interest on Lawyers Trust Accounts (IOLTA)

We also offer IOLTAs to law firms as an option to place client funds into a pooled account that earns interest used to benefit public service programs. IOLTAs earn interest¹ on balances over \$1,000 that is paid directly to the NH Bar Foundation. There is no monthly service charge.

¹Variable-rate account. At our discretion we may change the interest rates and annual percentage yields at any time without notice. Fees may reduce earnings. Interest will be compounded every month and credited to your account every month. The daily balance method is used to calculate the interest on your account. This method applies a daily periodic rate to the principal in the account each day. On non-cash deposits (checks, for example), interest will begin to accrue no later than the next business day. Rate sheet available at any office or online at themerrimack.com.

²Earnings credit rate may change each statement cycle. Earnings credit can be used to offset monthly service charge and service fees. If earnings credit exceeds the charges, there will be no service charges. Excess earnings credit per statement cycle cannot be applied to the account to offset future fees. For information about earnings

credits, and the current rate, please see a Bank Representative.

³ Available from the Bank at no additional charge. You may incur service provider fees, as applicable. Check with your wireless service provider for details on its fees and charges for mobile and text messaging services. Terms and conditions may apply, as well as an additional application process.

⁴ With signed Mutual Benefits Partner Agreement.
