¹ Variable-rate account. At our discretion we may change the interest rates and annual percentage yields at any time without notice. Fees may reduce earnings. Interest will be compounded every month and credited to your account every month. The daily balance method is used to calculate the interest on your account. This method applies a daily periodic rate to the principal in the account each day. On non-cash deposits (checks, for example), interest will begin to accrue no later than the next business day. Rate sheet available at any office or online at themerrimack.com.

² Combined monthly balance consists of average collected monthly balance in all checking and savings accounts, ledger balance for CDs, and all outstanding balances on home equity lines or credit, home equity loans, installment loans and mortgages owned and/or serviced by the Merrimack.

³ Overdrafts may be created by check, ACH, online banking transactions, phone transactions or other electronic means. Recurring debit card transactions (payments that are set up to pay automatically) such as an automatic draft from your health club or insurance company may continue to be covered by your overdraft service. You will be charged an overdraft fee of up to \$32.50 for each overdrawn item. Once an overdraft has occurred you are required to bring your account to a positive balance within 30 days. Whether your overdrafts will be paid is discretionary and we reserve the right not to pay. We do not typically pay overdrafts if your account is not in good standing.

Courtesy pay is only available to account holders 18 and older.
